## DETAILED ACTION

### Claim Rejections - 35 USC§102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claim(s) 1-14 is/are rejected under 35 U.S.C. 102(b) as being anticipated by Hirsch (3737192).

Hirsch discloses a combine having a feeder (elevator ref 24) house below a cab (ref 30) for conveying harvest harvested from an implement (header, ref 22) to a threshing/separating rotor for further processing as inherently known for such combine (cl. 1, 3);

the cab is located on a front end of the frame (12) forwardly of the body containing such processing devices as rotor, beater etc... inherently known for such combine (10); although a cab can be moved for many reasons (such as reducing height), however a four bar linkage assembly (54, 64, on both sides) capable of raising the cab relative to a frame portion and thus creating a space (as shown in fig 2) sufficient for installation of the rotor or any other parts (cl. 1-2, 4-7, 12-14).

Art Unit: 3671

As applied to claim(s) 8-11, in view of the structure disclosed/taught by Hirsch, the method of operating/using the device is inherent since it is the normal and logical manner in which the device is used.

### **Response to Arguments**

3. Applicant's arguments with respect to claims 1-14 have been considered but are moot in view of the new ground(s) of rejection.

It is noted that the original claims 1-11, most importantly independent claims, have been substantially revised/amended, while claims 12-14 are new claims necessitated new search examination as detailed above.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **\*THIS ACTION IS MADE FINAL\***. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
